

Cabbage Patch news April 2020 !!

- What a difference we are all facing in our everyday lives.
- We are adjusting to life at Cabbage Patch and operating within the Government guidelines on how to run our preschool.
- Coronavirus has affected everyone and preschool is no exception.
- We are staying open to provide care and education to the children whose parents are key workers themselves. This will enable them to continue with their important jobs.
- We will also be offering places to vulnerable children.
- Regulations state that we must cap our numbers at 16.
- Any questions any time please get in touch.

Your children would normally be bringing home their learning journeys for you to look through and see the ways they have been playing and learning. Under the present circumstances we will not be sending them home. The staff will continue updating them to show your child's progression but obviously those who have only been with us a short time may only have a little content and those now at home will have less evidence.. We have formulated ways to keep in touch and new work sheets and ideas for learning will be delivered, emailed or put on face book. They will connect to the theme we would be teaching. Their key persons will look at the homework collected each month when they bring new topics. They will also bring certificates and little rewards as we can not see them in person to praise them for trying, give out stickers etc. Please post or email any photos of your ideas that you are doing with your child at home. If / when guidance changes and we can take more children we will be in touch. Parents decisions will always be respected.

Front garden
Janice has been taking groups of children out to plant bulbs in the borders at the front of our building. They have enjoyed doing this and naturally we want them to be able to see how they grow. Please keep to the path and ensure that no one walks on the growing areas.

September 2020 places

We are pleased once again that all children in the playgroup stage are returning to do their next year with us. We can offer the places requested by parents who presently attend, and you will be contacted to confirm they have been reserved for September. We will then be allocating places to siblings and new parents would normally be visiting ready for September starts but this year our plan is to do a video showing our facilities and introducing the staff.

The schools will soon be allocating reception places and we hope that you are successful with your choices. Please let us know the outcomes. If you are not pleased and wish to appeal let your child's key person know and we will support you through the process.

Cabbage Patch will be closed for the Easter holidays and we hope you have the best times possible.
